Jean Pierre PINI offers an activity designated as ACROBOSC, that consists of an aerial adventure obstacle course that is UNACCOMPANIED AND COMES UNDER HIS FULL RESPONSIBILITY. This activity requires strict conditions of participation, in compliance with specific safety standards applicable to the practice of this activity and these are provided in detail by the company's staff.

The preliminary general and safety instructions for exercising this activity are provided to participants as an obligation prior to signing up and practicing the activity.

The practical side consists of a detailed description of the activity, the area in which it takes place and the attitude participations should adopt along with their behaviour in a forest area in general and in the event of danger, as well as an explanation of the equipment provided. All participants must be aware of the risks inherent in practising this activity of which they are also informed.

If following the practical introduction, the participant no longer feels capable of taking part in the circuit in all safety, they may decide to abandon and a full reimbursement will be made. However, beyond this point, once a participant has started the obstacle course, NO REIMBURSEMENTS WILL BE MADE.

### CONDITIONS OF PARTICIPATION
